REV. ROBERT H. HARPER KNOWING HOW

THE other day I looked out a window and saw a young woman valuly trying to open the little door of a glove compartment. Then another young woman on the driver's side leaned over and tried to open the door. Unless the lock was "frozen," I knew there was a simple way to open the door, but of Susan E Heawell Missinoary So- the young women had evidently ciety at North Pond Picnic; not learned it Much time and even money is lost because so many do not know how to do small

Many young persons spend the the know how of important things and fit themselves for useful and rewarding life. Others, who have small concern for learning the know how, go drifting "from pillar to post," in an effort to "get by" and are usually numbered among life's failures.

The most important know how of life concerns the most important things-its right uses and best purposes. Man needs above all to know how to live in the fullest way morally and spiritually. And where shall men learn what things are worth while and the way to attain unto them? Acknowledge the authority of the Great Book and make it your guide amid the devious ways of

and Mr and Mrs Earl McAllister improves the happiness of manand family have been visiting Mr kind.-Lord Essex **Budget-Price House**

Architect Jan Reiner, who designed this compact little house shown in the 37th edition of NEW HOMES GUIDE magazine, planned it as a home to be built on a budget. The lines are simple almost square in plan—to avoid the extra construction expenses of angles and corners. Still everything necessary for modern livabilihas been included. The

kitchen has a living-dining space and a built-in barbecue. The living room second bedroom can dou-ble as a den or study. House area is 660 sq. ft. For blueprint information, write NEW HOMES GUIDE, Dept. 1032, 621 N. Dearborn, Chicago 10.

MECHANIC ST .- Opposite the Monument

don't but any cae before you drive a chem . . . Its east showroom is the edad.

Here's why Chevy's best showroom is the road!

Because Chevrolet's sleek good looks, its advanced features, are only part of the story. The big bonus is its remarkable roodability, the cresp precision handling that has posted an entirely new standard for cars in every price class. There are reasons for this, of course: Chevrolet's balanced weight distribution that takes

excessive leads off the front wheels. the wide stance of outrigger rear springs, Ball-Race steering, spherical-joint front suspension. Sure, you can admire the sculptured lines in the chowroom. But Chevy's a car specifically designed for beautiful motion-you have to travel in this one to know just how terrific it is. Try it, this week!
